SCHEDULES
THE WILDLIFE CONSERVATION (CAPTURE OF ANIMALS) REGULATIONS
(Section 94)

G.Ns. Nos.
278 of 1974
178 of 1990

1. Citation

These Regulations may be cited as the Wildlife Conservation (Capture of Animals) Regulations.

2. Interpretation

In these Regulations—

"**permit**" means a permit for the capture of an animal issued under these Regulations;

"**prescribed**" in relation to a form means a form prescribed in a Schedule to these Regulations; and

"**prescribed fee**" in relation to a permit for the capture of any animal means the fee prescribed in relation to such animal in the Fifth Schedule;

"**Schedule**" means a Schedule to these Regulations;

"**trapper**" means a person authorised by a licence or permit to capture an animal.

3. Capture permit

(1) Every capture permit shall be in the form prescribed in the Second Schedule and no permit shall be granted except upon an application made by the applicant in the form prescribed in the First Schedule and upon payment of the prescribed fee.

(2) A permit shall be valid only in relation to the area, if any specified therein and shall not constitute an authority for the capture of any animal in any other area.

4. Permit not to constitute an authority

A permit shall not constitute an authority for the capture of an animal of any species other than the species specified therein or for the capture of a number of animals of any species in excess of the number specified in relation to that species.

5. Trapper to inform Game Officer of his intentions

Where a capture permit authorises the capture of an animal in a district other than the district in which the permit is issued the trapper shall, before capturing any animal in such first mentioned district, inform in writing the Game Officer in charge of such district of his intention to capture animals in that district and give particulars of the permit issued to him.

6. Valid trapper's permit

No person shall be granted a permit unless he holds a valid trapper's card in the form prescribed in the Third Schedule, and which bears a serial number and upon which

are recorded the name and address of the holder and such other particulars as are specified in these Regulations.

7. Trapper's card

(1) A trapper's card under regulation 6 may be issued to any person by a licensing officer upon being satisfied that the person applying for that card is fully experienced in the capture of an animal of the species in relation to which the card is applied for.

(2) A trapper's card shall not be valid unless it bears—

- (a) the trapper's photograph affixed on the appropriate space provided for the purpose;
- (b) the trapper's signature (or thumb mark);
- (c) the signature of the issuing officer and the official stamp of the Game Division so affixed that a portion of it falls on the photograph.

8. Carrying of trapper's card

Every trapper shall carry his card whenever he is engaged in capturing an animal.

9. Loss of trapper's card

When a trapper's card is lost, destroyed, defaced or otherwise rendered unusable he shall forthwith report the circumstances of the loss, destruction or defacement to the police and to the licensing officer of the District in which he is resident and on application being made by the owner to the Director for a duplicate of the card, the Director may authorise a licensing officer to issue a duplicate.

10. Grant of permit

(1) No person shall be granted a permit unless he satisfies the licensing officer—

- (a) that he will employ an approved method for the capture of the animal;
- (b) where he proposes to employ any other person to capture an animal, that such other person holds a valid trapper's card in relation to animals of the species to which the application relates;
- (c) that he has access to a holding farm, aviary or pen as may be appropriate, where the captured animal will be kept until exported;
- (d) in the case of any captured animal being intended for sale, barter or other commercial transaction, that he holds a valid trophy dealer's licence authorising him to deal in animals of the species to which the application relates;
- (e) that he has made firm arrangements for the sale or other disposal of the animal intended to be captured to a zoological or other institution and that it is not against the public interest for such institution to receive such animal.

(2) For the purposes of these Regulations "approved method of capture" means any one of the following methods of capture—

- (a) enticing the animal into a cage or container incorporating a trap door which closes by some contrivance after the animal has entered, the container being well constructed and large enough to allow the animal freedom of movement;

- (b) entrapping the animal by a basket or cage constructed of a strong but light material that entraps the animal when enticed to a spot over, on or near which such trap is placed, such trap being large enough to allow freedom of movement;
- (c) entrapping the animal by netting and removing it from the net immediately after capture;
- (d) chasing the animal with or without lassoing but the chase must be stopped if the animal is not captured within one thousand metres of the point from which the chase was commenced;
- (e) any method which the Director may, in any case, approve by a writing under his hand.

11. Capture permit to be valid

Unless earlier surrendered or revoked, a capture permit shall be valid for two months from the date of issue.

12. Director's permission to capture

Notwithstanding any permit granted to any person, no person shall, except with the prior written consent of the Director capture—

- (a) any male animal in any breeding herd;
- (b) an apparently pregnant female or any adult animal accompanied by a young animal;
- (c) any nesting bird or reptile;
- (d) more than one animal from any herd or group of—
 - (i) cheetah;
 - (ii) gerenuk;
 - (iii) klipspringer;
 - (iv) lesser kudu;
 - (v) mountain reedbuck;
 - (vi) rhinoceros;
 - (vii) zebra;
- (e) more than four animals in any one day from any one herd.

13. Personal supervision

Every capture operation shall be under the personal supervision of the permit holder.

14. Animal to be kept in a holding ground

Where the method of capture employed is chasing every mammal captured shall be kept in a holding ground which shall not be more than one hundred kilometres from the trapping ground, for at least one week before it is transferred to a holding farm.

15. Holding grounds and farms to be maintained

(1) Holding grounds and farms shall be maintained in such manner as a Game Officer or a Veterinary Officer may direct and it shall be lawful for any authorised officer at any time to inspect a holding ground or farm as the case may be.

(2) The owner as well as the trapper using any holding ground or farm shall be responsible for the efficient maintenance of the ground or farm and be liable to comply with these Regulations and any lawful direction given hereunder.

16. Before export

Subsequent to its capture and prior to export–

- (a) every herbivorous mammal shall be kept in captivity for at least two months during which it shall be supplied with the type of food which will be available on the journey;
- (b) every carnivorous mammal shall be kept in captivity for at least one month during which it shall be supplied with the type of food which will be available on the journey;
- (c) every reptile, amphibian or bird shall be kept in captivity for at least fourteen days during which it shall be supplied with the type of food which will be available on the journey;
- (d) every carnivorous mammal shall be kept in captivity for at least one month during which it shall be supplied with the type of food which will be available on the journey;
- (e) every reptile, amphibian or bird shall be kept in captivity for at least fourteen days during which it shall be supplied with the type of good which will be available on the journey;
- (f) every animal shall be allowed not less than seven days to accustom itself to the container in which it will be exported.

17. Container to conform to the specifications

Every container in which an animal is exported shall conform to the relevant specifications and requirements prescribed in the Fourth Schedule.

18. Director to be informed of any export

The holder of a permit shall inform the Director in writing of his intention to export any animal at least two weeks before the date of export.

19. Holder to produce a permit to the Director

Before any animal is exported holder of a permit shall produce to the Director–

- (a) a letter from a zoological institution or similar establishment as evidence that the animal will be received by the institution or establishment; and
- (b) evidence that proper accommodation has been reserved on a ship or aircraft for the animal.

20. Inspection

A Game Officer shall be entitled to inspect any animal in its container before it is exported.

21. Animal to be produced to a Veterinary Officer

(1) Not earlier than seven days prior to the export of any animal the animal shall be produced to a Veterinary Officer who shall examine the animal and issue a certificate of health in respect of the animal.

(2) No animal shall be exported unless the Veterinary Officer examining it has certified that it is in a fit state of health and has received all the necessary vaccinations and inoculations.

22. Trophy export certificate

When approval for the export of any animal is given a trophy export certificate shall be issued in respect of that animal and shall be endorsed with the name and address of the institution to which the animal is consigned.

23. No removal of animals from their holding

Animals for export shall not be removed from their holding farm until arrangements have been made for them to be loaded on a ship or aircraft within twenty-four hours of arrival at the port of embarkation.

24. Accompanying of animals

The holder of the permit or of a valid trapper's card employed by the holder of the permit shall personally accompany all animal consignments to the port of embarkation and supervise the loading of all animals.

25. Welfare and safety of animals

The holder of the permit shall be responsible for the welfare and safety of the animal captured by him until such time as the animal is exported and shall take all necessary and reasonable measures to safeguard the welfare and safety of the animal as well as the protection of the persons involved in any capture operation, transport and export of the animal from any attack or other injury by or through the animal.

26. Production of a certified copy

Within ninety days after the export of any animal the holder of a permit shall produce to the Director a certified copy of the bill of lading in respect of that animal and a letter from the institution to which the animal has been sent acknowledging the receipt of the animal.

27. Record keeping

Every owner of a holding farm shall maintain a record of all animals received and disposed by him in a register in the form prescribed in the Sixth Schedule to these Regulations.

28. Particulars to be furnished to the Director and Game Officer

Every owner of a holding farm shall send a monthly return to the Director and to the Game Officer in-charge of the area in which his holding farm is situate giving the following particulars—

- (a) the number of animals of each species on his farm on the last day of the preceding month;
- (b) the number of animals of each species captured during the preceding month;
- (c) the number of animals of each species exported during the preceding month, the names of the institutions to which they have been exported and the amount

of money realised;

- (d) the number of animals of each species which have died in captivity during the preceding month.

29. Directors power to vary or add any provisions

The Director may in writing vary, add to or disapply any of the provisions of these Regulations in relation to any operation, animal or permit holder and every variation, addition or disapplication shall be endorsed on the permit.

30. Permit to keep a live animal

Any permit holder who intends to keep a live animal in captivity for a period exceeding six months from the date of capture shall—

- (a) in writing inform the Director of his intention and the purpose for which the animal shall be kept;
- (b) supply the Director with the particulars of the animal to be so kept.

31. Written authority for commercial exhibition of live animals

No trapper shall keep live animals in captivity for the purpose of commercially exhibiting the animals to members of the public except with a written authority of the Director.

32. Offences

Any person who contravenes any provision of these Regulations or makes any false statement in any application or other document or to any authorised officer performing any function under the Act or any subsidiary legislation commits an offence and is liable on conviction to a fine not exceeding fifteen thousand shillings or to imprisonment for a term not exceeding three years or to both that fine and imprisonment.

FOURTH SCHEDULE
CONTAINER STANDARDS FOR EXPORT OF ANIMALS
A - MAMMALS

<i>Group No.</i>	<i>Species</i>	<i>Container Standards</i>
1.	(1) Zebra (2) Rhinoceros (3) Buffalo (4) Large Antelopes ...	(a) The animal shall be crated singly. (b) The length of the container shall be made at least 50 cm. longer than the animal. (c) The container shall be provided with a gap of at least 20 cm. between the highest point reached by the animal and the roof. (d) The sides of the container shall be planked solid for two thirds the height. (e) Any necessary padding shall be made to the sides and rear of the container away from the horns. (f) The bottom boards of the container shall be made transverse with suitable gaps for drainage. (g) The container shall be made in a manner that will prevent the animal turning round.
2.	Elephant	(a) The animal shall be crated singly. (b) The length of the container shall be made at least 50 cm. longer than the animal. (c) The container shall be provided with a gap of at least 20 cm. between the highest point reached by the animal and the roof. (d) The sides of the container shall be planked solid and provided with apertures for looking out or putting the trunk through without getting a hold on which to pull. (e) Any necessary padding shall be made to the sides and rear of the container away from the tusks. (f) The bottom boards of the container shall be made transverse with suitable gaps for drainage. (g) The container shall be made in a manner that will prevent the animal from turning round.

Group No	Species	Container Standards
3.	Hippopotamus	(a) The animal shall be crated singly.
<p>(b) The length of the container shall be made at least 50 cm. longer than the animal.</p> <p>(c) The container shall be provided with a gap of at least 20 cm. between the highest point reached by the animal and the roof.</p> <p>(d) The sides of the container shall be planked solid for two thirds the height.</p> <p>(e) The bottom boards of the container shall be made transverse with suitable gaps for drainage.</p> <p>(f) The container shall be made in a manner that will prevent the animal from turning round.</p> <p>(g) During the day the animal shall be sprayed at suitable intervals or sacks shall be kept on the roof of the container and kept wet to ensure a continuous drip of water.</p>		
4.	(1) Giraffe (2) Ostrich	(a) The animal shall be crated singly or six chicks in a cage.
<p>(b) The length of the container shall be made at least 50 cm. longer than the animal.</p> <p>(c) The container shall be provided with a gap of at least 20 cm. between the highest point reached by the animal and the roof.</p> <p>(d) The planking of the sides may be perforated in such a manner that will not allow the animal to put its head through.</p> <p>(e) The roof and any hard point where the animal might strike its head if given sudden jolt shall be padded.</p> <p>(f) The bottom boards of the container shall be made transverse with suitable gaps for drainage.</p> <p>(g) The container shall be made in a manner that will allow the animal to turn round, lie down, stand or stretch with ease.</p> <p>(h) Giraffe of over 330 cm. in height shall not be exported without prior consultation with the air-line or ship that will carry it.</p>		
5.	(1) Lion (2) Leopard	(a) The animal shall be crated singly.
(3) Cheetah	<p>(b) The container shall be made to allow the animal to stretch fully in all directions.</p> <p>(c) The bottom and the sides of the container may be boarded solid.</p>	
<p>(d) The rear and front sides of the container shall be provided with bars closely placed to prevent the animal from putting its paws through.</p>		
6.	Small Antelopes	(a) The animal shall be crated singly or two or more if well acquainted.
<p>(b) Animals from different species may be crated together if well acquainted.</p> <p>(c) The container shall be made to allow the animal to stretch fully in all directions.</p> <p>(d) Three sides and the floor of the container shall be boarded solid.</p>		

		(e) The front shall be provided with vertical slats that will prevent the horns of the animal from being caught in between them.
7.	(1) Baboon	(a) The animal shall be crated singly.
(2) Monkey	(b) Containers for primates weighing less than 4 kg. shall be made at least 35 x 35 x 50 cm. in size.	
		(c) Containers for primates weighing over 4 kg. shall be made at least 50 x 50 x 70 cm. in size.
		(d) Where the animals are to travel by sea the container shall be made one and half times the sizes given in regulations 7(b) and 7(c) and shall be provided with perches at a height that will allow the tails of the animals to dangle free of the floor.
		(e) The bottom of the container shall be slatted to allow out-flow of excrement which can be retained in a tray inserted below the container.
8.	Galago (Bushbabies)	(a) The animal shall be crated singly or up to 4 immatures in a cage.
		(b) Containers shall be made at least 20 x 20 x 20 cm. in size or shall be made to allow for a space of at least 20 x 20 x 20 cm for each animal.
		(c) The bottom of the container shall be slatted to allow out-flow of excrement which can be retained in a tray inserted below the container.

B - BIRDS

<i>Group No.</i>	<i>Species</i>	<i>Number in a Container</i>	<i>Container Standards</i>
1.	Quails	15	(a) Container shall be made at least 50 x 60 x 25cm. in size.
	Button Quails	15	
	Small Waders	15	
	Babblers	15	(b) Container shall be provided with a perch at least 3 cm. from the floor.
	Thrushes	15	
	Tits	15	
	White-eyes	25	
	Finches	25	
	Buntings	25	
2.	Cuckoo Shrikes	1 or 2 (M&F)	(a) Container shall be made at least 50 x 60 x 25 cm. in size.
	Pittas	3	
	Small Francolins	3	
	Love-birds	5	(b) Container shall be provided with a perch at least 3 cm. from the floor.

	Large-weavers and allies in size	10	
	Warblers	10	
	Orioles	10	(c) Container shall be provided with soft lining to the inside of the roof.
	Shrikes	10	
	Bulbuls	20	
	Sudan dioch and allies	20	
	Larks	25	
	Wax bills and allies	25	
3.	Small ducks		Container shall be made at least 50 x 60 x 25 cm. in size.
	Rails	3	
	Fin-foot	3	
	Plovers and allies	5	
	Sandgrouse	6	
	Large owls	2	
	Gulls	3	
4.	Rollers	3	(a) Container shall be made at least 50 x 60 x 20 cm. in size.
	Pigeons	3	
	Turacos	3	
	Giant Kingfisher	3	
	Small birds of prey	3	
	Caucals	4	(b) Container shall be provided with a perch at least 10 cm. from the floor.
	Small owls	4	
	Doves	5	
	Parrots	5	
	Bee eaters	5	
	Wood-peckers	5	
	Hoopoes	5	
	Trogons	5	
	Honey Guides	5	
	Broad bills	5	
5.	Ducks	3	Container shall be made at least 50 x 60 x 20 cm in size.

	Thicknecks	3	
	Jacana	3	
	Grebes	3	
6.	Francolins	3	(a) Container shall be made at least 50 x 60 x 20 cm in size.
	Guinea fowls	3	(b) Container shall be provided with soft lining to the inside of the roof.
7.	Secretary Bird		(a) The animal shall be crated singly.
	Hérons		(b) Container shall be made sufficiently large to allow inmates complete freedom of turning and stretching their necks.
	Bitterns		
	Storks		
	Bustards		
	Pelicans		
	Cormorants		
	Other large birds		
8.	Spoonbills		(a) The animal shall be crated singly or up to 6 individuals when export is by air.
	Flamingo		(b) Container shall be provided with soft lining under the roof.
	Cranes		(c) Container shall be made sufficiently large to allow inmates complete freedom of movement.
	Egrets		(d) The floor shall be covered with canvas, hessian or similar material.
	Ibises		
9.	Vultures Eagles		(a) The animal shall be crated singly.
			(b) Container shall be made sufficiently large to allow inmates complete freedom of movement.
			(c) Container shall be provided with perches at least 15 cm. from the floor.

C - OTHER ANIMALS

Such container as the Director may approve

D - GENERAL CONDITIONS

- (1) Animals shall be enclosed in containers which are roomy and comfortable and if the animals are to travel by sea the containers must be larger and stronger than that used for air transport.

- (2) Containers shall be strong, all nails and screws counter-sunk.
- (3) Containers which will stand on a deck shall be provided with feet or battens to allow a space of at least 10 centimetres between the bottom of the container and the deck.
- (4) Provision must be made in containers for inserting food and water and removing excrement without undue disturbance to the animals.
- (5) Provision must be made for the animal to see outside but there must be a curtain which can be let down to give the animal privacy when necessary.
- (6) Roofs of containers that are not sheltered shall be made waterproof.
- (7) All containers shall be adequately ventilated and protected from extremes of temperature.
- (8) Containers for birds which do not require padding under the roof shall be ventilated at the top and on one side.
- (9) Perching birds shall be provided with suitable perches.

C - REPTILES

1	2	3	4	5
No.	Scientific Name	English Name	Kiswahili Name	Fee (T. Shs)
1.	Order - LORICATA Family - Crocodylidae	CROCODILES	MAMBA	
	(1) <i>Crocodylus cataphractus</i>	Sharp-Nosed Crocodile	Mamba magharibi	5,000
	(2) <i>Crocodylus niloticus</i>	Nile Crocodile	Mamba mashariki	500
2.	Order - SQUAMATA S.O. (1) SAURIA Family (1) Gekkonidae	LIZARDS	MIJUSI	
	(2) Agamidae	Gekkos	Mijusi ya ukutani	5
	(3) Varamidae	Old Lizards	Mijusi ya zamani	5
	(4) Amphisbaenidae	Monitors	Kenge	100
	(5) Lacertidae	Worm Lizards	Mijusi jongoo	5
	(6) Scincidae	Typical Lizards	Mijusi ya kawaida	10
	(7) Chamaeleonidae	Smooth-Scaled Lizards	Mijusi myororo	5
		Chameleons	Kinyonga	20

S.O.(2) OPHIDIA (SERPENTES)	SNAKES	NYOKA	
Group A - AGLYPHA	Fangless, Solid Toothed Non-Poisonous Snakes		
Family (1) Tyropidae	Blind Burrowers	Nyoka wasio na sumu wenye meno madogo katika taya la juu	10
Family (2) Leptotyphiopidae	Worm Snakes	Nyoka wasio na sumu wenye meno madogo kwenye taya lachini	10
Family (3) Pythonidae	Python	Chatu	100
Family (4) Colubrinae			

1	2	3	4	5
No.	Scientific Name	English Name	Swahili Name	Fee (T. Shs)
	Family cf 1. Colubrinae	Fangless Colubrids	Nyoka wasio na sumu wenye meno katika taya zote	
	Examples			
	(1) Boaodon	House Snakes		20
	(2) Duberia	Slug-Eaters		20
	(3) Prosymna	Shovel-Snouts		20
	(4) Lycophidion	Wolf-Snakes		20
	(5) Mehelya	File Snakes		20
	(6) Lycodonomorphus	Water Snakes		20
	(7) Natriceteres	Marsh Snakes		20
	(8) Philothommus	Green, Bush and Water Snakes		20
	(9) Meizodon	Bush Snakes		20
	cf 2. Dazypeltinae	Egg Eater With Pharyngeal Teeth	Nyoka wala mayai	20
	Group B - OPISTHOGLYPHA	Back-Fanged moderate to poisonous Snakes	Nyoka wenye meno yenye sumu kidogo kwenye taya la juu nyuma	
	cf 3. Boiginae			

	Examples:		
(1)	Thelotornis	Twig, vine and bird snakes	30
(2)	Dispholidus	Boomslang	30
(3)	Telescopus	Tiger Snakes	30
(4)	Tarbophis	White-Lipped Snakes	30
(5)	Crotaphopeltis	Cross-Barred Snakes	30
(6)	Chamaetortus	Bark Snakes	30
(7)	Hemirhagerrhis	Beaked Snakes	30
(8)	Rhamphiophis	Striped Bush Snakes	30
(9)	Trimerorhinus	Grass Snakes	30
(10)	Psammophylax	Olive Grass Snakes	30
(11)	Neusterophis	Sun (Sand) Snakes	30
(12)	Psammophis	Purple-Glossed Snakes	30
(13)	Calamelaps	Centipede Eaters	30
(14)	Aparallactus	Swamp Snakes	30
(15)	Dromophis		30
Group C - PROTEROGLYPHA			
		Front Rigid-Fanged Highly Poisonous (neurotoxic) Snakes	
		Nyoka wenye meno ya mbele ya sumu yasiyotembeya yenye sumu kali	
	Family (5) Elapsoidae	Examples:	
(1)	Boulengerina	Water Cobra	Swila 50
(2)	Elapsoidae	Garter Snakes	Chaurembo 50
(3)	Naja	Cobras	Koboko 50
(4)	Dendroaspis	Mambas	Hongo 50
	Family (6) Hydrophidae	Sea Elapids	Swila bahari 50
Group D - SOLENOGLYPHA			
		Front Articulate-Fanged highly poisonous (haemolytic) Snakes	
		Nyoka wenye memo ya mbele ya sumu yana yotembea yenye sumu	

	Family (7) Viveridae	Examples:	kali ya damu	
	(1) Atractaspis	Burrowing Adders	Vifutu	50
	(2) Causus	Night Adders		50
	(3) Bitis	Typical Adders		50
	(4) Vipera	Peters' Viper		50
	(5) Atheris	Tree and Swamp Vipers		50

D - AMPHIBIANS

1.	2	3	4	5
No.	Scientific Name	English Name	Kiswahili Name	Fee (T.Shs)
1.	Order - ANURA	Frogs and Toads	Vyura	10
2.	APODA	Caecilians		10
3.	URODELA	Newts and Salamanders		10

E - BUTTERFLIES

1	2	3	4	5
No.	Scientific Name	English Name	Kiswahili Name	Fee (T.Shs)
	Order - LEPIDOPTERA:			
	Family (1) Papilionidae	Swallowtails		1
	(2) Danaidae	Monarchs (Mikweed)		
	(3) Nymphalidae	Charaxes		1
	(4) Pieridae	Whites		1
	(5) Acraeidae	Acraeas		1
	(6) Satyridae	Browns		1
	(7) Libytheidae	Snouts		1
	(8) Riodinidae	Judys		1
	(9) Lycaenidae	Blues and Coppers		1
	(10) Hesperidae	Skippers		1

**SIXTH SCHEDULE
BIRDS AND THEIR FEES**

<i>Sn</i>	<i>English Name</i>	<i>Fees T.Shs.</i>
1.	Pink backed Pelican	1,000/-
2.	Whitel Pelican	1,000/-
3.	Abdmin's Stork	1,000/-
4.	Marabour Stork	1,000/-
5.	Hammerkop	2,000/-
6.	Lesser Flamingo	1,500/-
7.	Greater Flamingo	1,500/-
8.	Hadada Ibis	1,500/-
9.	Sacred Ibis	1,000/-
10.	African Spoon Bill	5,000/-
11.	Purple Gallinule	5,000/-
12.	Striped Crake	5,000/-
13.	White Spotted Crake	5,000/-
14.	Moorhen	5,000/-
15.	Allon's Gallinule	5,000/-
16.	Black Crake	5,000/-
17.	African Finfoot	5,000/-
18.	Red Knobbed Coot	5,000/-
19.	Ground hornbill	1,500/-
20.	Yellow billed hornbill	500/-
21.	Von decken's hornbill	500/-
22.	Red billed hornbill	500/-
23.	Grey hornbill	500/-
24.	Growned hornbill	500/-
25.	Trumpeter hornbill	1,000/-
26.	Silver cheeked hornbill	1,000/-
27.	Red necked spurfowl	400/-
28.	Yellow necked spurfowl	400/-
29.	Grey breasted spurfowl	400/-
30.	Coqui francolin	400/-
31.	Hilderbrandt's francolin	1,000/-
32.	Red winged francolin	400/-
33.	Crested francolin	400/-
34.	Shelly's francolin	400/-

35.	Scally francolin	400/-
36.	White backed vulture	5,000/-
37.	Hooded vulture	5,000/-
38.	Tawny A Eagle	5,000/-
39.	Shikra	Out of Trade
40.	Black Kite	
41.	Black Shouldered Kite	
42.	Vulturine Guinea Fowl	500/-
43.	Helmeted Guinea Fowl	400/-
44.	Doves	200/-
45.	Fischer's Love Birds	200/-
46.	Red headed lovebirds	1,000/-
47.	Meyer's Parrot	500/-
48.	Brown headed Parrot	500/-
49.	Orange bellied Parrot	500/-
50.	Red Fronted Parrot	500/-
51.	Livingstone's turaco	1,000/-
52.	Hartland's turaco	1,000/-
53.	Fisher's turaco	1,000/-
54.	Ross's turaco	1,000/-
55.	Go away bird	500/-
56.	Bulbul	50/-
57.	Blus napped monsebird	100/-
58.	Speckled monsebird	50/-
59.	Barbets	200/-
60.	Wattled Starling	100/-
61.	Violet backed Starling	100/-
62.	Blue eared Glossy Starling	50/-
63.	Splendid Starling	200/-
64.	Ruppell's Starling	200/-
65.	Superb Starling	200/-
66.	Red Winged Starling	200/-
67.	Golden breasted Starling	200/-
68.	Hiderbrandt's Starling	200/-
69.	Sunbirds	500/-
70.	Finches	20/-

71.	Golden Weaver	100/-
72.	Masked Weaver	50/-
73.	Specied Weaver	100/-
74.	Other Weaver	50/-
75.	Whydahs	50/-
76.	Waxbills	50/-
77.	Canary	100/-
78.	Bishop	100/-
79.	Other Plovers	50/-
80.	Black Winged Stilt	50/-
81.	Avocet	200/-
82.	African Jacana	500/-
83.	Emerald Cuckoo	200/-
84.	Kingfisher	500/-
85.	Rollers	200/-
86.	Narina's Trogon	200/-
87.	Bar tailed Trogon	200/-
88.	Bee eater	100/-
89.	Paradise Flycatcher	200/-
90.	Woodpecker	200/-
91.	Africa Hoopoe	200/-
92.	Honey Guides	100/-
